Texas Commission on Environmental Quality Grain Handling, Storage, and Drying Air Permits by Rule (PBR) Checklist Title 30 Texas Administrative Code § 106.283

Check the most appropriate answer and include any additional information in the spaces provided. If additional space is needed, please include an extra page and reference the rule number. The permit by rule (PBR) forms, tables, checklists, and guidance documents are available from the Texas Commission on Environmental Quality (TCEQ), Air Permits Division Web site at: www.tceq.texas.gov/permitting/air/nav/air pbr.html.

This PBR (§ 106.283) may require registration with the commission's Office of Air in Austin before construction begins. The facility can be registered by completing Form PI-7, "Registration for Permits by Rule," or Form PI-7-CERT, "Registration and Certification for Permits by Rule." This checklist should accompany the registration form.

For additional assistance with your application, including resources to help calculate your emissions, please visit the Small Business and Local Government Assistance (SBLGA) webpage at the following link: www.TexasEnviroHelp.org

Check The Most Appropriate Answers and Fill in the Blanks:				
Is a dryer used at this facility?	🗌 YES 🗌 NO			
<i>If "YES," verify that the dryer complies with the requirements of 30 TAC § 106.183. A § 106.183 Checklist is available to help verify compliance and should be included with the submittal.</i>				
Is the facility only for non-commercial use (produced and used only by the owner of the facility)?	🗌 YES 🗌 NO			
If "YES," complete the section of questions related to non-commercial grain handling facilities. If "NO," skip the questions related to non-commercial facilities.				
Is the facility only for commercial use?	🗌 YES 🗌 NO			
If "YES," complete the questions regarding commercial grain handling facilities. If "NO," skip the questions related to commercial facilities.				
Is the facility being installed to provide additional grain storage capacity?	🗌 YES 🗌 NO			
If "YES," complete the section on installation of additional grain storage capacity.				
<i>If "NO," Question (3) do not complete the section of questions on installation of additional storage capacity.</i>				

Texas Commission on Environmental Quality Grain Handling, Storage, and Drying Air Permits by Rule (PBR) Checklist Title 30 Texas Administrative Code § 106.283

Rule	Non-Commercial Grain Handling Facilities		
(1)(A)	What is the maximum total storage capacity of all new and existing facilities (bushels)?		
	bushels		
Note: Re	quirement is \leq 750,000 bushels		
(1)(B)	What is the maximum hourly grain loading capacity ?		
	bushels/hr		
Note: Re	quirement is ≤ 4,000 bushels per hour.		
(1)(C)	What is the distance from the facility to any recreational area, residence, or business not occupied or used solely by the owner of the facility?		
	feet		
Note: Re	quirement is \geq 500 feet.

Texas Commission on Environmental Quality Grain Handling, Storage, and Drying Air Permits by Rule (PBR) Checklist Title 30 Texas Administrative Code § 106.283

Check The Most Appropriate Answers and Fill in the Blanks:				
Rule	Installation of Additional Grain Storage Capacity			
(3)(A)	Will there be an increase in hourly grain handling capacity?	YES NO		
(3)(B)	Will existing receiving and load-out facilities be used?	YES NO		
(3)(C)	Will grain be conveyed by a closed conveying system?	YES NO		
(3)(C)	Will air suction be pulled on any conveying unit?	YES NO		
(3)(C)	Will a gravity or auger load-out system be installed?	I YES I NO		
(3)(D)	Do you understand that an authorization letter must be received from the commission before construction of the facility begins?	YES NO		
(3)(D)	Did you provide Form PI-7 or Form PI-7-CERT as part of this registration request?	YES NO		
🔲 Form I	PI-7			
Other Applicable Rules and Regulations				
Is the facility subject to 40 CFR Part 60, NSPS Subpart DD?		YES NO		
Why or Why Not:				

Record Keeping: In order to demonstrate compliance with the general and specific requirements of this PBR, sufficient records must be maintained to demonstrate that all requirements are met at all times. Records for grain handling operations should include, but are not limited to, the maximum hourly and annual capacity of the handling equipment, dryer fuel usage, and firing rate, and hours of operation as described in the TCEQ grain handling guidance at: www.tceq.texas.gov/permitting/air/nav/air_agdocs.html

The registrant should also become familiar with the additional record keeping requirements in 30 TAC § 106.8. The records must be made available immediately upon request to the commission or any air pollution control program having jurisdiction. If you have any question about the type of records that should be maintained, contact the Air Program in the TCEQ Regional Office for the region in which the site is located

Recommended Calculation Method: In general, air emissions estimates are not required during a PBR registration review for this facility. However, in order to demonstrate compliance with this PBR, the registrant may be asked to estimate emissions. These estimates may be made by compiling the required records. If sufficient records are maintained on-site and the grain handling facility meets the requirements, the TCEQ will be able to establish the emission rates if necessary.
