December 1, 2023

Plain Language Summary of the Ozone Attainment Plan for the Dallas-Fort Worth (DFW) Area

Introduction

The United States Environmental Protection Agency (EPA) established the maximum level of ozone in the air to protect human health (75 parts per billion for the 2008 ozone standard). Ten counties in the DFW area (Collin, Dallas, Denton, Ellis, Johnson, Kaufman, Parker, Rockwall, Tarrant, and Wise Counties) do not meet the EPA's 2008 standard for ozone and are classified as a severe nonattainment area under that standard. Texas must develop a plan, known as a State Implementation Plan or SIP, to reduce ozone in this area to meet the standard by the EPA's deadline of July 20, 2027.

Summary

The proposed attainment plan for the DFW area includes a photochemical modeling analysis and a weight-of-evidence analysis that evaluate the attainment status of the area (Project No. 2023-107-SIP-NR). The proposed attainment plan also includes an analysis of possible reasonably available control measures and reasonably available control technology. The proposed attainment plan also includes motor vehicle emissions budgets for the 2026 attainment year. An included contingency plan will provide additional emissions reductions if the area fails to meet the 2008 ozone standard.

Public Comment and Hearing Information

The Texas Commission on Environmental Quality (TCEQ) will offer a public hearing in Arlington on January 11, 2024 at 7:00 p.m. in the City Council Chambers of Arlington City Hall located at 101 West Abrams Street. This hearing is offered to receive public comments on the proposed attainment plan for the DFW area (Project No. 2023-107-SIP-NR). The hearing is also offered to receive public comments on three other proposals that would impact the DFW area. One is a proposed reasonable further progress plan (Project No. 2023-108-SIP-NR), and the others are proposed rulemakings relating to air pollutant control strategies (Project Nos. 2023-116-115-AI and 2023-117-117-AI). The hearing will be conducted in English, and Spanish language interpretation services will be available. For accommodation needs, contact Jamie Zech, Office of Air at (512) 239-3935 or 1-800-RELAY-TX (TDD) as far in advance as possible.

The comment period for this project opens on December 1, 2023 and closes on January 16, 2024. Submit written comments through the *TCEQ Public Comments* system at <https://tceq.commentinput.com/>. Comments for the proposed attainment plan must reference **SIP Project Number 2023-107-SIP-NR**.

The proposed attainment plan documents can be found on the TCEQ's website at <https://www.tceq.texas.gov/airquality/sip/siplans.html#prosips> and the proposed

rulemaking documents can be found at

https://www.tceq.texas.gov/rules/propose_adopt.html.

For more information about the proposals or to get help with submitting written comments, contact Denine Calvin, SIP Project Manager, (512) 239-0613 or denine.calvin@tceq.texas.gov.
